In one sentence, describe your service project goal.

What will be your message to people who participate in your service project (*focus on being positive!*)?

Measures of success: List three ways you will know that your project was successful (*give hard numbers – i.e. 150 people participated, we picked up 15lbs of trash, two elected leaders attended, etc.*).

Describe how your service project takes your debate and makes it actionable.

What resources do you need to make it happen? Where will you get them?

List five ways you will engage your community – friends, family, neighborhood, city, school, etc.

How will you make sure that what you do on the day of your service project has a lasting effect?

List the groups in your area that work to raise awareness and take action on your issue of focus. Will you collaborate with any of these groups? If so, how? If not, what are you doing that no one else is doing?
